

Public Information Requests:

The public's right to know is vital to an accountable, citizen-centered government. Government Code §552 (Texas Public Information Act) delegates the County's obligations to comply with a public information request. The Act is triggered by a **written** request to a governmental body (the County).

Upton County makes every effort to keep its citizens informed. To make a public information request, an individual must forward a **written** request to the following office:

Upton County Commissioners' Court
P.O. Box 482
Rankin, TX 79778
(432) 693-2321 ext.2
(432) 693-2243 Fax

The request must include enough description and detail of the requested information so the County can accurately identify and locate the requested items. The County may assess a reasonable charge for copies and under certain circumstances for access to the requested information.

Additional information on the Texas Public Information Act can be found on the Attorney General's website:
